Rental of Storage Facility for Material for Transmission and Raw Water Mains

The Government of Suriname has received financing from the Inter-American Development Bank toward the cost of the ***Water Supply Modernization Program (WSMP)*** and intends to apply part of the proceeds to payments under this project.

The Program Executing Unit (PEU) of the Water Supply Modernization Program, operating under N.V. Surinaamsche Waterleiding Maatschappij (SWM), intends to rent a suitable storage facility for the temporary storage of material for transport and raw water mains.

SWM hereby invites quotations from eligible and qualified parties for the **rental of a storage facility,** including the provision of the necessary infrastructure and facilities to ensure the safe and appropriate storage of these materials..

The proposed storage facility shall provide a minimum usable area of **3,600 m²**, including a warehouse of at least **1,500 m²,** and shall meet the minimum technical requirements relating to heavy-vehicle accessibility, internal roads, drainage, security, sanitary facilities and lighting, as further specified in the Request For Quotation (RFQ).

LOCATION

The storage location shall be situated within **10 km of the proposed pipeline route**, as specified in the RFQ.

The Request for Quotation (RFQ) in *English* may be obtained until **Friday, November 13, 2026** on submission of a written application to: *procurementwsmp@gmail.com.*

The RFQ will be sent by e-mail to all interested eligible parties who have shown interest as described above.
